GHP (Good Hygiene Practices)

Due to Ethic Logistic's drivers does not handle merchandise or come into contact with it, generally being their sole mission to transport the conditions set, and therefore the risk of contamination is minimal due to lack of hygiene, from the organization it is specified basic standards, and considering that the driver is the image of the organization wherever he goes. In general:

- Always show a general aspect of proper hygiene and clean clothes.
- Take special care of hands and nails.
- Do not eat or smoke when on duty at the customer's premises, except in designated areas for this purpose.
- Clothing must be always in good conditions. There is no need for a special washing in a laundry, being washed for the drivers themselves.

Although not generally come into contact with the product, keep in mind that we are in the food industry and must follow specific guidelines.
